

MUNICIPAL PLANNING AND INFRASTRUCTURE

Site Planning/Landscape Architecture/Engineering

Bradford District High School

Client: Simcoe County Board of Education

Location: Town of Bradford, Ontario

As part of a coordinated effort between the Simcoe County District School Board (SCDSB), Town of Bradford/ West Gwillimbury (TOBWG), and adjacent residential development, **GREENLAND** oversaw Phase 1 of the TOBWG Civic Centre Masterplan. These works included integrating a 400m track and regulation sized soccer pitch.

GREENLAND provided complete facility design and contract administration services. The field is built to the Ontario Sports Turf Association Class 3 level field and includes a fully automated irrigation system with rain sensor technology for water conservation. In addition a field underdrainage, and tailored root zone mix were used to ensure maximum playability.

The project is scheduled for completion in the Spring 2009.

GREENLAND was responsible for:

- Co-ordination of legal & topographic surveys;
- Co-ordination with the Board's consulting team;
- Co-ordination of associated consultants;
- Grading plan and earthwork calculations;
- Design of storm sewer system
- Design of Field underdrainage
- Co-ordination of Irrigation Design and Specifications
- Contract documents and specifications;
- Contract administration;

(TOBWG Civic Centre Masterplan)
